STATINTL

Dear [REDACTED]

Very recently I was pleased to meet Dr. Jako of the Boston University School of Medicine. During the course of informal conversation, he noted that the exhibit, "Drug Abuse," received the Billings Gold Medal for 1972, and wide recognition at the last Annual Meeting of the American Medical Association in San Francisco. Inasmuch as your work on this exhibit, and that of your colleagues, may not have come to the attention of the public in general, I thought you would at least like to know that those of us who are presently involved in an intensive Federal-State-local cooperative effort aimed directly at illicit drug trafficking in more than 30 principal American cities especially appreciate your efforts. STATINTL

I am sending a similar letter to Doctors [REDACTED].
Congratulations and best wishes to all of you for a job well done.

Sincerely,

MYLES J. AMBROSE
Special Consultant to the President
